MINING AND CONSTRUCTION SAFETY SPECIALISTS

What we strive for:

- M.A.C.S.S. core business is to provide contract safety services to organizations whose aim is to achieve a performance benchmark far superior to that of their peers

Why we are different:

- We make sure that the end product is both user friendly and financially viable for your business
- We make safety inherent in your system
- We keep it, simple, effective and compliant

THE CLIENT

- Your input to the build process makes it your system
- We help you understand your obligations through the process
- We help you understand what you need
- We assist from start to finish so you are never fumbling through on your own

MEETING THE NEEDS

We can assist you to:

- Influence the culture in your organization
- Change attitudes
- Ensure the system works
- Coach & Mentor
- Provide a balanced approach to management systems and behavioral programs

BENEFITS

- Practical, cost effective solutions that work
- Ability to mobilise within a short time frame and flexibility in project arrangements
- Confidence in knowing that you will be legislatively compliant as well as business suitable

The only appropriate commitment toward safety performance is the elimination of all worker injury

NO INCIDENTS, NO EXCUSES
